1. **Situation:** Current Echelon Above Brigade (EAB) mission command Field Artillery (FA) force structure and organizational design does not sufficiently meet the required capabilities in support of Combatant Commander (CCDR) requirements as part of the Joint Force (JF). This results in the inability to effectively integrate and synchronize fires at brigade, division, and corps levels in support of Unified Land Operations (ULO).

The Army's decision to implement Division Artilleries (DIVARTYs) will provide planning, synchronization, and coordination to execute strategic, operational, and tactical fires in support of decisive action. Provide effective mission command for the training and readiness of attached Field Artillery battalions.

After thirteen years of persistent conflict, there is a continuing atrophy in Field Artillery skills and erosion of leader and professional development within the Fires Warfighting Function (WfF) from basic section/platoon level skills to the battalion level skills such as the ability to mass and synchronize fires in support of the maneuver commander.

2. **Mission:** Joint Task Force-Carson prepares trained and ready expeditionary forces for deployment in support of Combatant Commander requirements; provides first class support to Soldiers, Airmen, Civilians, and Families; and enables unified action with community, state, and interagency partners to accomplish all assigned missions.

3. **Execution:**

**Commander's Intent:** On 16OCT15, FORSCOM implements the activation of 4ID DIVARTY and establish command relationships to enhance mission command to produce trained and ready Fires units capable of providing synchronized strategic, operational, and tactical level effects in support of combined arms maneuver and wide area security.

## **OPORD 15-10 (4ID Artillery (DIVARTY) Implementation Order)**

Today's decisive action capable divisions must possess capable, flexible, and agile fire support. The intent is to develop a single clearing house for standardized fires certification and leader development while exemplifying effective mission command, and supporting seamless cross-attachment of units with common procedures and shared understanding of this essential warfighting capability. To that end, the DIVARTY, will reverse the continuing atrophy of FA skills, halt the erosion of professional and leader development in the Fires WfF, and restore the art and science of delivering synchronized fires, coordinating fire support, and managing sensors.

**Purpose:** 214 FiB inactivates and the 4ID DIVARTY activates to provide mission command to 4ID fires elements, integrate joint fires at the Division level, and to serve as a single proponent for standardized fires certification and leader development. 4ID DIVARTY will support seamless cross-attachment of units with common procedures and shared understanding of their essential war fighting capability. 4ID DIVARTY will facilitate the planning, coordination, integration and synchronization of fires in support of the Division Commander's objectives.

### **Key Tasks:**

- ❖ Improve the Division Commander's ability to deliver tactical to operational fires while improving Brigade Combat Teams (BCT) combined arms effectiveness.
- ❖ Identify and implement adjustments to FA organizations, training and leader professional development, while enhancing command and support relationships
- ❖ Develop a standardized approach to training and integrated fires to ensure accomplishment of operational and tactical level fire support tasks.
- ❖ Execute mission command of 4ID Fires forces including recommending Fires organization for combat and positioning of assigned/ attached/ OPCON Fires units.
- ❖ Integrate Army, Joint, and coalition/ partner tactical fires in support of distributed operations at the division level.
- ❖ Synchronize counter-fire operations and radar employment in and for the division.
- ❖ Reverse the continuing atrophy of FA skills, halt the erosion of professional and leader development in the Fires WfF, and build the art and science of synchronizing fires within the division.
- ❖ Conduct training, certification, and mentoring of Fires forces within the division.

a. **Concept of the Operation:** Today's decisive action capable divisions must possess capable, flexible, and agile fire support. The intent is to develop a single clearing house for standardized fires certification and leader development while exemplifying effective mission command, and supporting seamless cross-attachment of units with common procedures and shared understanding of this essential warfighting capability. To that end, the DIVARTY, will reverse the continuing atrophy of FA skills, halt the erosion of professional and leader development in the Fires WfF, and restore the art and science of delivering synchronized fires, coordinating fire support, and managing sensors. The implementation of 4ID DIVARTY will be executed in three (3) phases.

**Phase I** (Pre- Initial Operating Capacity) begins with publication of this order. Phase I is the Pre-Initial Operational Capability (IOC) shaping effort and is defined by initial mission analysis and conditions setting in preparation for inactivation of 214 FiB and activation of 4ID DIVARTY. This operation consists of four initial Lines of Effort: Personnel, Operations, Logistics, and Signal. During the planning phase the staff conducts an in-depth mission analysis identifying all specified, implied and essential tasks along with transition risks and their dependencies across different agencies or LOEs. Each staff section compiles information on and develops appropriate ANNEXs to submit entries to the G3.

**Phase II** (Initial Operating Capacity) is the buildup and activation of DIVARTY HQs and HHB beginning 22 OCT 2014 and ends at the activation of 4<sup>th</sup> Division Artillery on or about the E-Date of 16 OCT 2015. During this phase the main effort will be the manning, equipping and establishment of systems to support DIVARTY assuming mission of the planning, coordination, integration and synchronization of fires in support of the Division Commander's objectives and able to conduct mission command of Fires forces assigned/ attached/ OPCON to 4<sup>th</sup> Infantry Division.

## **OPORD 15-10 (4ID Artillery (DIVARTY) Implementation Order)**

**Phase III** (Full Operational Capacity) begins with the activation of the 4<sup>th</sup> Division Artillery on or about 16 OCT 2015 and ends with all field artillery battalions task organized under DIVARTY. During this phase, DIVARTY reviews and comments on FA battalion Unit Status Report (USR) (approved by the BCT Commander), 4ID DIVARTY Commander assumes special courts martial convening authority over attached FA battalions, and 4ID FA battalion's Mission Training Briefs (MTB), budget and rating schemes are fully aligned. FA battalions' windows for the Transfer of Authority (TOA) and attachment to the DIVARTY will account for current known operational requirements for each BCT.

**Initial Operational Capability (IOC)** is further defined by:

DIRLAUTH between 214 FiB and FA battalions within 4ID BCTs granted. 214 FiB will be responsible for inactivation, and will assign a Command Team at Fort Carson Colorado (FCCO) to establish a DIVARTY HHB. The HHB will be responsible for reception/accountability of personnel and equipment as well as establish lines of communication with the JTF Carson staff and agencies.

Begin nesting 214 FiB and 4ID BCT FA battalions training calendars into a combined DIVARTY training calendar in order to synchronize resources for optimal fires WFF training.

The DIVARTY is responsible for the management of 13 series (Artillery) Soldiers manning across the division. The DIVARTY Commander is responsible for managing Battery Command slates and makes recommendations to the Commanding General for the Field Artillery Field Grade Officer slate.

**Full Operational Capable (FOC)** is further defined by:

Tasking authority for administrative and non-operational taskings is transitioned from BCTs to 4 ID DIVARTY upon achievement of FOC.

4ID DIVARTY Commander is responsible for Field Artillery units individual and collective certifications and qualifications.

4ID DIVARTY reviews and comments on FA battalions USR (approved by BCT Commander and submitted via Defense Readiness Reporting System-Army (DRRS-A) under the BCTs UIC).

4ID DIVARTY Commander assumes special courts martial convening authority over attached FA battalions.

FA battalions' rating schemes, tasking authority, etc. are fully aligned with the DIVARTY

On or about 1 February 2016, 4ID DIVARTY assumes command authority with all appropriate roles and functions for all FA battalions. The 4ID DIVARTY Commander assumes the authorities and responsibilities listed below for 2-12 FA (1/4 SBCT), 3-29 FA (3/4 ABCT), and 2-77 FA (4/4 IBCT) **at FOC**:

Rate the BCT Fires Battalion Commanders and senior rate FA Battery Commanders and FSC Commanders IAW current evaluation regulations and policies.

Execute special courts martial convening authority, field grade appellate authority, and administrative actions authority, with support from the Legal Office.

Provide recommendations on the FA field grade slate to the Division Commander, approve the Battery Command positioning across FA units and manage junior Officers and senior NCO's (E-7 and above) career management.

Manage and assign all 13 series personnel and advise the BCT Commanders on low density MOS Soldiers designated to FA battalions across the division.

Responsible for all Division (FSE) personnel and associated equipment

## **OPORD 15-10 (4ID Artillery (DIVARTY) Implementation Order)**

Approve ARCOM and recommends approval for MSM and above.

Responsible for CCIR and SIR reporting.

Responsible for CCIR and SIR reporting.

4ID DIVARTY is responsible for planning, executing and assessing all FA individual and collective training **at FOC**:

4ID DIVARTY is responsible for FA battalion MTBs in conjunction with assigned BCTs.

FA battalions are synchronized with the 4ID DIVARTY battle rhythm as well as BCT's logistics battle rhythms.

Responsible for training guidance and approval of unit training plans and programs.

Provide Mission Essential Task List (METL) guidance to ensure the FA battalion METL supports the supported BCT METL that is nested within the DIV METL and collective training priorities.

Responsible for training management/Division Training Management System (DTMS).

Execute Fires training to certify units (Battery/Battalion fires tables, FDC, FiST, Artillery Leader, Radar, Survey, Mortar Certification and JFO Management, etc.) in accordance with 4ID Redbook TBP

Responsible for FA leader professional development across the Division

Responsible for EO/SHARP/Retention program management.

4ID DIVARTY is responsible for property accountability and ownership:

Manage property book actions to include but are not limited to lateral processing, equipment turn-in oversight and new equipment fielding.

Responsible for the management of Financial Liability Investigation for Property Loss (FLIPL).

BCT Commander authorities, roles and functions for FA battalions **at FOC**:
